

PRESS RELEASE

Backup-Connect nominated Golden Partner by Ahsay Online Backup System

Huizen/Tokyo, 20 October 2006 – Backup-Connect, supplier of online backup services, is to cooperate with Ahsay Online Backup System. This developer of online backup software has nominated Backup-Connect Golden Partner. This means that the Backup-Connect support team will cooperate directly with the Ahsay developers. This will enable the team to offer the customer faster and better support and an optimum service level.

The user-friendly online backup solutions of Backup-Connect work in close cooperation with Ahsay software. Backup-Connect supplies the products to resellers, partners and end-customers. Customers can order the solutions via the webshop on www.backup-connect.com.

“Backup-Connect and Ahsay complement one another perfectly”, says Hilco de Roo, commercial director of Backup-Connect. *“Ahsay concentrates solely on the development of high-quality software. We ensure that customers profit from this as much as possible via accessible total packages.”* Backup-Connect also supplies translations of Ahsay software documentation to customers and is involved in beta-tests.

The partnership between the companies commences immediately and is applicable in all eleven countries in which Backup-Connect has branches. In most of the countries where Backup-Connect operates, the company is Ahsay's only Golden Partner.

Backup-Connect

Backup-Connect is a Dutch supplier of complete online backup services in which the emphasis is on security and reliability. For its services the company uses the KPN data centre and powerful software in the form of Online Backup Manager. In addition Backup-Connect manages the entire backup chain itself. The services provided by the company are laid down in clear Service Level Agreements. Backup-Connect operates in eleven countries and works with an extensive network of resellers and partners.
